The law enforcement investigator and the Mercer County Jail will work together with the local prosecutor's office to assure appropriate criminal prosecution of cases of sexual assault or staff sexual misconduct.

At the completion of the investigation, the staff investigator will compile all the documentation, including the investigative report, incident reports with disposition, medical and counseling evaluation findings, and recommendations for post-release treatment, and place these records in the inmates' case history files. Information in inmates' case history files will be retained for 7 years following the inmate's release from custody, per state records retention policies.

members are instructed to keep the reported information confidential and only discuss it with the appropriate officials on a need to know basis.

There are, however, other means to confidentiality report the assault if you are not comfortable talking with staff.

Seek Medical Help

If you have been sexually assaulted, you must get medical attention immediately. Although it may be difficult, it is important that you **do not shower after the assault**. Showering may wash off the hair and body fluids which are critical evidence. Also, bring the clothes and underwear that you had on at the time of the assault to the medical exam with you. You will be checked for the presence of physical evidence which supports your allegation. A medical professional will perform a pelvic and/or rectal examination to obtain samples of or document the existence of physical evidence such as hair, body fluids, tears or abrasions which remain after the assault. This physical evidence is crucial in corroborating the sexual assault occurred and in identifying the assailant. The examination will be conducted privately and professionally.

You should seek medical help if you have been sexually assaulted or had sexual relations with others, to determine if you have been exposed to the HIV virus or other sexually transmitted diseases. Female offenders will be tested for pregnancy when appropriate.

Understand the Investigative Process

Once the misconduct is reported, the Jail Staff or other appropriate law enforcement agency will conduct an investigation. The purpose of the investigation is to determine the nature and extent of the misconduct. You may be asked to give a statement during the investigation. If criminal charges are brought, you may be asked to testify during the criminal proceedings. Any inmate who alleges that he or she has been sexually assaulted shall be offered immediate protection and will be referred for a medical examination and counseling.

Counseling Programs for Victims of Sexual Assault

If you have been the victim of an assault by staff or inmates, you may seek counseling and/or advice from a mental health professional. Crisis counseling, coping skills, suicide prevention and mental health counseling are all available to you.

Most people need help to recover from the emotional effects of sexual assault. If you are the victim of a sexual assault, whether recent or in the past, psychology staff will be made available to counsel you. If you feel that you need to help to keep from sexually assaulting someone else, psychological services are available to help you gain control over these impulses.

About Your Safety

If you feel that your right to be left alone sexually is being violated, staff are available to help you deal with this problem. You should feel free to discuss your concerns about sexual assault with any staff member. Some staff, like psychologists, are specially trained to help you deal with problems in this area. If you are in an emergency situation, approach any staff member. It's part of their job to ensure your safety. Even if you have not been assaulted or abused, but are in fear for your safety, you must report your concerns to staff. You do not have to name other inmates to receive assistance, but specific information may make it easier for staff to help you.

Avoiding Sexual Assault

Here are some things you can do to protect yourself against sexual assault.

- Carry yourself in a confident manner at all times. Do not permit your emotions (fear/anxiety) to be obvious to others.
- Do not accept gifts or favors from others. Most gifts or favors come with strings attached to them.
- Do not accept an offer from another inmate to be your protector.

APPENDIX

- Find a Jail member with whom you feel comfortable discussing your fears and concerns.
- Be alert! Do not use contraband substances such as drugs or alcohol; these can weaken your ability to stay alert and make good judgments.
- Be direct and firm if others ask you to do something you don't want to do. Do not give mixed messages to other inmates regarding your wishes for sexual activity.
- Stay in well-lit areas of the institution.
- Choose your associates wisely. Look for people who are involved in positive activities like educational programs, psychology groups, or religious services. Get involved in these activities yourself.
- Trust your instincts. If you sense that a situation may be dangerous, it probably is. If you fear for your safety, report your concerns to staff.

REMEMBER:

Sexual Assault is a serious crime. The Jail will investigate all reported incidents of sexual assault. If you are a victim of such and assault, **REPORT IT IMMEDIATELY. JAIL STAFF WILL PROTECT YOU** from the assailant.
